MANAGING DIRECTOR'S REPORT

CALM IN THE STORM

THE CONSTRUCTION INDUSTRY IS CURRENTLY FACING CYCLONIC HEADWINDS FROM MANY DIRECTIONS.

Due to COVID, many elements within our industry have become dysfunctional. This includes labour and trade availability, material prices and prompt payment.

Add to this unseen levels of inclement weather and it's the perfect storm.

The combination of these elements and long term contract commitments, has resulted in many construction businesses failing.

So, how do we best navigate these unheralded times?

Box&Co has implemented additional risk management strategies in partnership with our clients. This includes identifying problematic trades, discussing and agreeing appropriate contract conditions, and applying reasonable project contingencies.

There has never been a time where stakeholder collaboration and cooperation is more important.

The short to medium term outlook is unpredictable, however it is hoped that some normality will return to our industry within 12 months.

Just like the students, we learn something new on every assignment, and this one was no exception. We gave our team an A+ for their work on the school's Town Square Awning, handing over the project right on the due date after just ten weeks.

KINGSTON BUTTER FACTORY

The Kingston Butter Factory has been under reconstruction since April 2020, and we're excited to announce that the \$17 million entertainment precinct is now complete. The project will pay homage to the rich history of Logan city with a world-class arts, culture and entertainment precinct. Let the real show begin!

LOGAN AQUATIC CENTRE

Work is well underway at the Logan Aquatic Centre pool upgrade with the project due for completion in August, in plenty of time for Summer!

The new pool shell is in at Logan Aquatic Centre.
