

# BIG THINGS ARE IN THE WORKS

**PROJECT:**  
Food & Beverage  
Manufacturing Facility  
Design & Construction

**LOCATION:**  
Brisbane

**BOX&CO ARE CONTINUING  
TO POUR OUR HEARTS INTO  
SOME BIG PROJECTS WITH OUR  
FOOD & BEVERAGE CLIENTS.**

For one such project, currently under construction, we managed the pouring of 200m<sup>3</sup> of concrete (that's 30 concrete trucks if you need a visual) over 4-5 hours into a slab which just happened to be six metres in the air.

Our extensive experience working in complex live environments means that we are able to get the job done, no matter how big or small, with as little disruption as possible to production schedules.

## MANAGING DIRECTOR'S REPORT

# DESIGN & CONSTRUCT A RECIPE FOR GROWTH

## WE HAVE SEEN SOME STABILISATION OF CONSTRUCTION ACTIVITY IN THE FIRST HALF OF FY24.

This may be due to the run  
of interest rate hikes.

This trend is likely to be  
short lived due to the  
continued population growth,  
housing demand and  
infrastructure requirements  
within Queensland.

These factors will combine  
to place major pressure on  
Construction Industry resources  
for the foreseeable future.

Box&Co has had a successful  
start to FY24 and our projection  
for the next six months is for  
continued growth.

Our focus on Design and  
Construct procurement  
has resulted in exceptional  
outcomes for our clients.

This can be attributed to our  
early project involvement  
and therefore proactive  
management of key project  
risks, particularly quality  
and time.
